Food Packaging & Rolls

From FFS roll films to premium stand-up pouches — 8 food-grade flexible packaging product groups.

- Auto Machine Roll Films ————— **04**
- Doypack Packaging ————— **05**
- Flat Bottom Pouch ————— **06**
- Pillow Bags (Back Seal) ————— **07**
- Quattro Seal Bags ————— **08**
- Side Gusset Bags ————— **09**
- Vacuum Bags ————— **10**
- Zipper & Ziplock Bags ————— **11**

Auto Machine Roll Films

High-speed roll films engineered for automatic form-fill-seal and flow-pack lines — consistent unwind, strong seals and reliable barrier at full production speed.

High Barrier

Minimizes the transfer of oxygen, moisture and odor.

High-Speed Ready

Consistent unwind and sealing on FFS and flow-pack machines.

Multi-Layer Strength

PET/PE, BOPP/CPP and aluminum-barrier structures.

Where it's used

Snacks

Biscuits & bakery

Frozen food

Chocolate & confectionery

Dairy products

Powder products

8-Color Flexo

Sharp, vivid CI flexo printing.

Matte / Glossy

Matte, glossy or metallized finishes.

Custom Rolls

Custom widths and diameters.

Food Safe

Food-grade material structures.

Metallized Option

Transparent or metallized film.

Strong & Flexible

Durable structure at high speeds.

Doypack Packaging

Our doypack packaging protects product freshness, extends shelf life and provides maximum protection with its strong structure.

High Protection

Minimizes the transfer of oxygen, moisture and odor.

Extended Shelf Life

Preserves freshness and aroma for a longer time.

Durable Structure

Provides superior resistance against punctures and tears.

Where it's used

Coffee

Nuts & dried fruits

Snacks

Powder products

Pet food

Spices

Stand-Up Design

Strong shelf presence, easy display.

Leak-Proof

Provides reliable product protection.

Resealable

Zipper feature offers practical use.

Food Safe

Made with food grade materials.

Premium Printing

High quality printing enhances your brand value.

Recyclable

Production with environmentally friendly materials.

Flat Bottom Pouch

Premium wide-base pouches with a rigid, box-like footprint — superior shelf stability and five printable panels for maximum retail impact.

Shelf Stability

Rigid box-style base stands firm on the shelf.

High Barrier

Strong protection against oxygen and moisture.

Brand Canvas

Five print panels for maximum branding space.

Where it's used

Coffee packaging

Pet food

Nuts & dried fruits

Snacks

Protein powders

Premium food products

Box-Style Base

Wide flat bottom, premium look.

Zipper Reclose

Optional resealable closure.

High & Low Barrier

Structures matched to your product.

Food Safe

Made with food grade materials.

Premium Printing

High-definition brand printing.

Premium Finish

Matte, glossy or soft-touch surfaces.

Pillow Bags (Back Seal)

Center and back-seal pillow pouches optimized for high-speed automatic filling — production efficiency with dependable seal integrity.

Cost Efficient

Economical format built for high volumes.

High-Speed Filling

Optimized for automatic packaging lines.

Seal Integrity

Strong, reliable center and back seals.

Where it's used

Chips & snacks

Biscuits & bakery

Chocolate & confectionery

Nuts & dried fruits

Frozen food

Powder products

Easy-Tear Notch

Convenient opening every time.

Euro Hole

Ready for hanging displays.

Matte / Glossy

Finish matched to your brand.

Metallized Barrier

Optional metallized structures.

Custom Printing

Flexographic brand printing.

Lightweight

Flexible, efficient material use.

Quattro Seal Bags

Four-side sealed pouches with a flat, elegant silhouette — strong seal strength and a distinctive premium presence on the shelf.

Premium Silhouette

Flat, elegant four-side sealed form.

Strong Seals

Reliable strength on all four edges.

Full Protection

Barrier against oxygen, moisture and light.

Where it's used

Coffee beans

Ground coffee

Pet food

Nuts & dried fruits

Powder products

Premium food products

Degassing Valve

One-way valve for fresh coffee.

Zipper Closure

Optional resealable system.

Easy-Tear Notch

Clean, effortless opening.

Clear Window

Show the product inside.

Matte / Glossy

Premium surface finishes.

Custom Sizes

Printed to your dimensions.

Side Gusset Bags

Expandable gusseted bags that hold greater volume while standing flat on the shelf — the proven format for coffee, tea and bulk dry goods.

Expandable Volume

Side gussets expand for greater capacity.

Shelf Ready

Stands flat for a clean shelf display.

Aroma Barrier

Locks in freshness for coffee and tea.

Where it's used

Coffee beans

Ground coffee

Tea

Nuts & dried fruits

Spices

Pet food

Degassing Valve

One-way valve for roasted coffee.

High-Barrier Laminate

PET, aluminum and PA options.

Bulk Formats

Sizes up to bulk capacities.

Food Safe

Made with food grade materials.

Premium Printing

High quality brand printing.

Durable Structure

Strong, flexible laminate build.

Vacuum Bags

High-barrier PA/PE vacuum bags that lock in freshness and extend shelf life — smooth or embossed, for chamber and external machines.

Freshness Lock

High oxygen and moisture barrier extends shelf life.

Puncture Resistant

Tough co-extruded PA/PE multilayer film.

Boil & Freeze Safe

From boil-in-bag to deep-freeze storage.

porpack.com →

Where it's used

Meat & poultry

Cheese & dairy

Seafood

Frozen food

Industrial parts

Medical products

Smooth / Embossed

Textures for every machine type.

Gusseted Option

Extra volume when needed.

Resealable Zip

Optional reclosable convenience.

Easy-Tear Notch

Effortless clean opening.

Clear Or Printed

Transparent or branded finish.

40-250 Microns

Thickness matched to the product.

Zipper & Ziplock Bags

Reclosable zipper bags that keep products fresh use after use — everyday convenience for food, retail and industrial components.

Reclosable

Airtight zip keeps products fresh.

Moisture & Dust Proof

Everyday protection, use after use.

Long-Term Storage

Durable PE and laminate structures.

porpack.com →

Where it's used

Snacks & dried foods

Frozen foods

Hardware & components

Retail & promotional packs

Pharma & personal care

Slider Option

Easy-glide slider closures.

Heavy-Duty Grade

Thicker builds for hard use.

Stand-Up Format

Zipper pouches that display well.

Easy-Tear Notch

Clean first opening.

Printed Or Clear

Branding or full transparency.

Custom Sizes

Dimensions and gauges to order.

Industrial Packaging

From PE bags to pallet stretch films — 4 product groups for industrial protection and logistics.

- PE Bags ————— **13**
- Construction Bags & Liners ————— **14**
- Shrink Films ————— **15**
- Stretch Films ————— **16**

PE Bags

Versatile LDPE and HDPE bags for everyday industrial packaging — reliable strength, clarity and moisture protection across industries.

Versatile PE Grades

LDPE, HDPE and LLDPE combined to spec.

Strong & Light

Reliable strength at low material weight.

Moisture Proof

Protects against moisture and dust.

Where it's used

Industrial packaging

Textile packaging

Food packaging

Spare parts packaging

Logistics & warehouse

Agricultural products

Flat Or Gusseted

Formats for every application.

Star-Seal Bottom

Strong sealed-base option.

Heavy-Duty Grade

Industrial thickness options.

Perforated Option

Easy-dispense perforations.

Printed Or Plain

Branded or clear surfaces.

Custom Colors & Sizes

Made to your specification.

Construction Bags & Liners

Reinforced polyethylene bags and liners built for demanding construction and demolition sites — high tear strength, dependable load capacity.

Heavy-Duty Film

Reinforced structures for demanding sites.

Tear & Puncture Proof

High resistance under heavy loads.

UV Stabilized

Options built for outdoor exposure.

porpack.com →

Where it's used

Construction waste collection

Industrial storage

Debris transportation

Surface protection

Warehouse applications

Heavy industrial operations

Rubble Bags

Debris and rubble handling.

Site Liners

Surface and storage protection.

Heavy Sacks

Bulk material transport grades.

Gusseted Option

Extra capacity formats.

Printed Option

Site or brand identification.

50-300 Microns

Industrial-grade thickness range.

Shrink Films

PE and POF shrink films for bundling, multipacks and pallet stabilization — high clarity, strong shrink force, reliable protection in transit.

High Clarity

Crystal-clear product presentation.

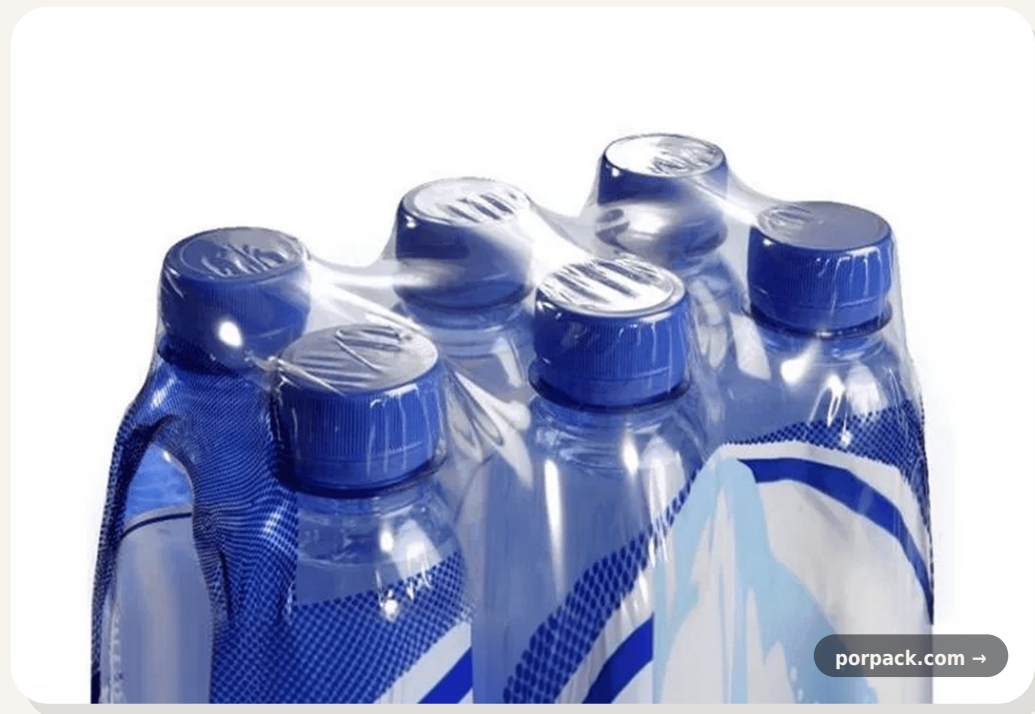

Strong Shrink Force

Tight, secure bundling with memory.

Transit Protection

Puncture and tear resistant wrap.

Where it's used

Multipack bundling

Pallet stabilization

Beverage packaging

Retail bundling

Printed promotional packs

PE & POF Options

Material matched to the line.

Multipack Bundling

Retail group packaging.

Pallet Stabilizing

Secure loads in transit.

Printed Option

Promotional branded film.

High-Gloss Finish

Premium surface quality.

15-200 Microns

Thickness for every job.

Stretch Films

Hand and machine stretch films engineered for maximum load retention and film yield — palletized goods stay secure across the supply chain.

Load Retention

Keeps pallets tight and stable in transit.

High Stretch Yield

More wraps from every roll.

Puncture Resistant

Cast and blown multi-layer films.

porpack.com →

Where it's used

Pallet wrapping

Warehouse logistics

Export shipments

Cold-chain distribution

Bulk load securing

Hand & Machine

Grades for every application.

Power Stretch

High-performance thin films.

Pre-Stretched

Easy application, less waste.

Colored / UV

Opaque and outdoor variants.

Non-Slip Variant

Extra-cling load security.

8-35 Microns

Manual and machine gauges.
