

Porpack Flexible Packaging

About Porpack

Porpack is the packaging brand of Portrade Ltd. We supply flexible and industrial packaging from Türkiye — from roll films for automatic lines to stand-up pouches, vacuum bags and pallet films — to food producers and industrial customers.

We combine multi-layer extrusion and lamination with a tailored approach. Barrier structure, thickness and print are specified around the real journey of your product: from the filling line to distribution and the retail shelf.

HOW WE WORK

A.

Consult

Technical advice on every project — structure, barrier, thickness and print chosen for your product and machine.

B.

Specify

Custom sizes, laminate structures and branded printing, produced to your exact specification. Design service on request.

C.

Supply

Consistent quality batch after batch, scalable volumes and delivery on the agreed date.

What goes into every roll and pouch.

PRINTING	8-colour flexo and 8-colour rotogravure — sharp, vivid branded print
LAMINATES	PET/PE, BOPP/CPP, aluminium-barrier and metallised structures
BARRIER FILMS	Co-extruded multi-layer PA/PE for vacuum and high-barrier use
POLYETHYLENE	LDPE, HDPE and LLDPE bags and films · PE and POF shrink · cast and blown stretch
FINISHES	Matte, gloss, metallised and soft-touch
FEATURES	Zipper, slider, degassing valve, tear notch, hang hole, window, perforation
MAX. BAG WIDTH	115 cm
DESIGN	Artwork and packaging design service on request

CERTIFICATION

ISO 28001

Supply chain security management

ISO 10002

Customer satisfaction & complaints handling

Certificates held by Portrade Ltd. Food-contact compliance documents for each material structure are shared on request.

01

Auto Machine Roll Films

High-speed roll films for automatic form-fill-seal and flow-pack lines — stable winding, strong sealing and a reliable barrier at full production speed.

- A High barrier.** Minimises oxygen, moisture and odour transfer.
- B Ready for speed.** Balanced winding and sealing on FFS and flow-pack machines.
- C Multi-layer strength.** PET/PE, BOPP/CPP and aluminium-barrier structures.

OPTIONS

Print	Flexo or rotogravure
Finish	Matte, gloss, metallised
Rolls	Custom width & diameter
Film	Clear or metallised
Material	Food-contact grades
Build	Strong at high speed

APPLICATIONS

Snacks

Biscuits & bakery

Frozen food

Confectionery

Dairy

Powders

02

Doypack Stand-up Pouch

Shelf-ready stand-up pouches that keep products fresh, extend shelf life and give your brand a strong presence on the shelf.

- A High protection.** Minimises oxygen, moisture and odour transfer.
- B Longer shelf life.** Keeps freshness and aroma for longer.
- C Durable build.** Excellent puncture and tear resistance.

OPTIONS

Format	Stand-up, easy to display
Closure	Reclosable zipper
Seal	Leak-proof
Print	Premium brand print
Material	Food-contact grades
Recyclable	Mono-material options

APPLICATIONS

Coffee

Nuts & dried fruit

Snacks

Powders

Pet food

Spices

03

Flat Bottom Pouch

Premium wide-base pouches with a rigid, box-like bottom — outstanding shelf stability and five print panels for maximum shelf impact.

- A Shelf stability.** The box-type base stands upright on the shelf.
- B High barrier.** Strong protection against oxygen and moisture.
- C Brand space.** Five printable panels for your design.

OPTIONS

Base	Wide, box-type bottom
Closure	Optional zipper
Barrier	High or low barrier
Print	High-resolution
Finish	Matte, gloss, soft-touch
Material	Food-contact grades

APPLICATIONS

Coffee

Pet food

Nuts & dried fruit

Snacks

Protein powders

Premium food

04

Pillow Bag Back Seal

Centre- and back-sealed pillow bags optimised for high-speed automatic filling — production efficiency with dependable seal integrity.

- A Cost advantage.** An economical format for high volumes.
- B High-speed filling.** Optimised for automatic packing lines.
- C Seal integrity.** Strong, reliable centre and back seals.

OPTIONS

Opening	Easy-tear notch
Display	Hang hole
Finish	Matte or gloss
Barrier	Metallised films
Print	Flexographic
Weight	Lightweight build

APPLICATIONS

Chips & snacks

Confectionery

Dry food & grains

Frozen food

Powders

05

Quattro Seal Bag

Four-corner sealed bags with a straight, elegant silhouette — strong seals and a distinctive premium presence on the shelf.

- A Premium silhouette.** A straight, elegant four-side sealed form.
- B Strong seals.** Reliable strength on all four edges.
- C Full protection.** Barrier against oxygen, moisture and light.

OPTIONS

Valve	One-way degassing
Closure	Optional zipper
Opening	Easy-tear notch
Window	Clear product window
Finish	Matte or gloss
Size	Made to your dimensions

APPLICATIONS

Coffee beans

Ground coffee

Pet food

Nuts & dried fruit

Powders

Premium food

06

Side Gusset Bag

Gusseted bags that take more volume while standing neatly on the shelf — the proven format for coffee, tea and bulk dry food.

- A Expanding volume.** Side gussets open to increase capacity.
- B Shelf-ready.** Stands upright for a tidy display.
- C Aroma barrier.** Locks in the freshness of coffee and tea.

OPTIONS

Valve	For roasted coffee
Laminate	PET, aluminium, PA
Size	Up to bulk formats
Print	Premium brand print
Material	Food-contact grades
Build	Strong, flexible laminate

APPLICATIONS

Coffee beans

Protein powder

Tea

Nuts & dried fruit

Grains

Pet food

07

Vacuum Bags 40–250 µm

High-barrier PA/PE vacuum bags that lock in freshness and extend shelf life — smooth or embossed, for chamber and external machines.

- A Freshness lock.** High oxygen and moisture barrier.
- B Puncture resistant.** Tough co-extruded multi-layer PA/PE.
- C Boil & freezer safe.** From boil-in-bag to deep freeze.

OPTIONS

Surface	Smooth or embossed
Gusset	For extra volume
Closure	Optional reclosable zip
Opening	Easy-tear notch
Print	Clear or printed
Gauge	40–250 micron

APPLICATIONS

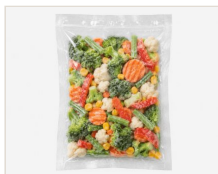

Meat & poultry

Cheese & dairy

Seafood

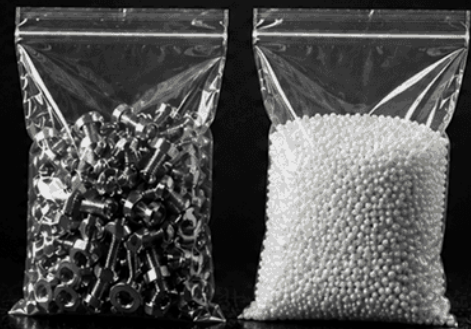

Frozen food

Industrial parts

Medical products

08

Zipper & Ziplock Bags

Reclosable zipper bags that keep products fresh, use after use — everyday convenience for food, retail and industrial parts.

- A **Reclosable.** An airtight lock keeps contents fresh.
- B **Moisture & dust proof.** Reliable protection every time.
- C **Long-term storage.** Durable PE and laminate structures.

OPTIONS

Slider	Easy-glide slider lock
Gauge	Heavy-duty available
Format	Flat or stand-up
Opening	Easy-tear notch
Print	Printed or clear
Size	Size & gauge to order

APPLICATIONS

Dry food

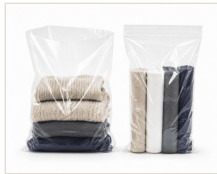

Frozen food

Hardware

Spare parts

Textiles

Retail & logistics

09

PE Bags LDPE · HDPE · LLDPE

Versatile polyethylene bags for everyday industrial packaging — dependable strength, clarity and moisture protection in every sector.

- A Versatile grades.** LDPE, HDPE and LLDPE to your spec.
- B Strong & light.** Reliable strength at low gauge.
- C Moisture protected.** Guards against moisture and dust.

OPTIONS

Format	Flat or gusseted
Bottom	Star-seal welded
Gauge	Heavy-duty available
Perforation	Easy tear-off
Print	Printed or plain
Width	Up to 115 cm

APPLICATIONS

Industrial

Textiles

Food

Spare parts

Logistics

Agriculture

10

Construction Bags & Liners

Reinforced polyethylene bags and sheeting for demanding construction and demolition sites — high tear strength and dependable load capacity.

- A Heavy-duty film.** Reinforced structures for tough sites.
- B Tear & puncture resistant.** Holds up under heavy loads.
- C UV stabilised.** Options for outdoor exposure.

OPTIONS

Rubble bags	Debris handling
Site sheeting	Surface cover
Sacks	For bulk materials
Gusset	Extra capacity
Print	Site or brand marking
Gauge	50–300 micron

APPLICATIONS

Construction waste

Industrial storage

Rubble transport

Surface protection

Warehousing

Heavy industry

11

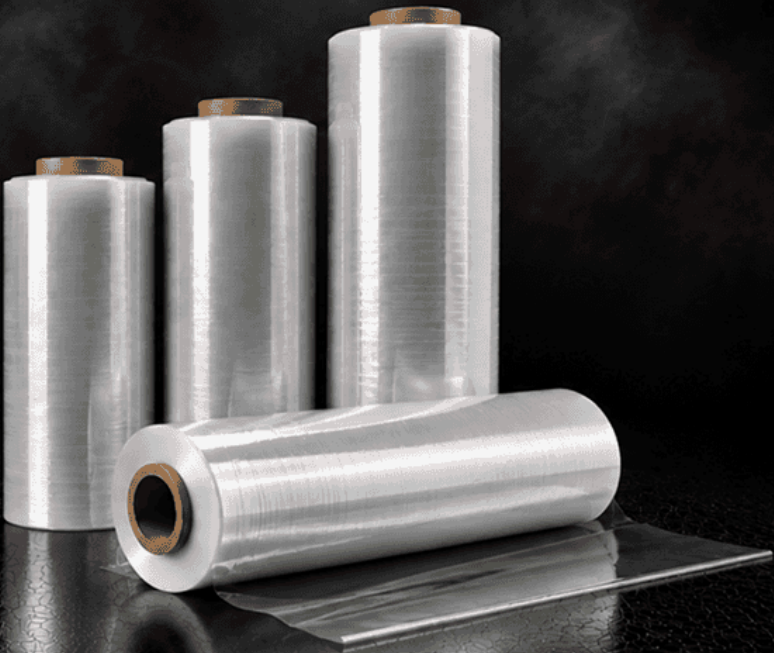

Shrink Films PE · POF

PE and POF shrink films for bundling, multipacks and pallet stabilisation — high clarity, strong shrink and dependable protection in transit.

- A High clarity.** Crystal-clear product presentation.
- B Strong shrink.** A tight, secure wrap with memory.
- C Transit protection.** Puncture- and tear-resistant wrap.

OPTIONS

Material	PE or POF
Multipack	Retail group packs
Pallet	Load stabilisation
Print	Promotional film
Surface	High gloss
Gauge	15–200 micron

12

Stretch Films Hand · Machine

Hand and machine stretch films engineered for maximum load holding and film yield — palletised goods stay secure across the supply chain.

- A **Load holding.** Keeps pallets tight and stable in transit.
- B **High stretch yield.** More wraps from every roll.
- C **Puncture resistant.** Cast and blown multi-layer films.

OPTIONS

Type	Hand or machine
Power stretch	Thin, high performance
Pre-stretched	Less waste
Colour / UV	Opaque, outdoor
Anti-slip	Extra grip
Gauge	8–35 micron

From brief to delivery.

Final prices and delivery terms are confirmed in each quotation. European deliveries are coordinated by our sales team together with Por Europe GmbH.

PRODUCT	MINIMUM ORDER	TYPICAL LEAD TIME
Vacuum bags	400 kg	2–3 wks plain · 4–5 wks printed
Doypack, flat bottom, quattro seal	400 kg	3–4 weeks
All other product lines	On request	Confirmed in quotation
